2020

PROFILE

Entry-level ServiceNow Developer with hands-on experience building custom applications in ServiceNow PDI. Skilled in JavaScript, Business Rules, Client Scripts, Script Includes, Flow Designer, UI Policies, ACLs, Import Sets and Service Catalog. Built a Hospital Management application using custom tables and reference relationships. Seeking an Associate ServiceNow Developer or ServiceNow Administrator opportunity to apply and expand my platform development skills.

PROJECT

Hospital Management

- Developed a custom Hospital Management application using ServiceNow PDI.
- Designed custom tables for Patients, Doctors, Departments, Appointments, Prescriptions, Medical Records and Billing.
- Created reference relationships and custom fields for structured data management.
- Applied ServiceNow platform configuration concepts including forms, tables and data relationships.
- Imported and managed application data using Import Sets and Transform Maps.
